

Energy Transfer

Energy – goes from the sun to producers, to herbivores, and omnivores, and then to carnivore and omnivores

Experiment 3 – Pass It On

1. Focus: To demonstrate how energy is transferred thorough a food chain.

2. Hypothesis (If, then): _____

3. Observations: (Qualitative, Quantitative, Labelled Diagram)

4. Conclusion

a) _____

b) _____

c) _____

Exit Slip:

Using the food web picture from last class, describe the cycle of matter. How does this process promote sustainability (Ecosystem can maintain itself?)

Admit Slip: Page 28 – Food Chains and You
